EXPERIENCE

Full-Stack Web Developer **Tech Studio Academy, Lagos** | Apr 2025 – Nov 2025

- Built and deployed RESTful APIs with Node.js & Express consumed by React front-end clients, improving load times by 30%.
- Optimised database queries and architected scalable JavaScript modules and reusable React components.
- Collaborated with designers on UI/UX; integrated third-party APIs (payment, auth, notifications), boosting engagement.
- Led agile sprints delivering projects ahead of schedule; automated testing pipelines reduced production bugs by 40%.
- Conducted thorough code reviews ensuring high-quality standards and best practices across the development team.

KEY PROJECTS

LasuConnect — *React, Node.js, Express, MongoDB*

- University social platform for LASU students — real-time chat, event listings, and student profiles on a full JavaScript stack.

Toju — *JavaScript, Chart.js, REST API*

- Personal finance tracker with income/expense logging, savings goals, and a rich data visualisation dashboard via Chart.js.

E-Commerce Platform — *React, Node.js, MongoDB*

- Full-stack shopping app with JWT auth, product management, cart, and checkout — fully integrated REST API back-end.

Task Management Dashboard — *React, WebSocket, REST API*

- Real-time collaborative task board with drag-and-drop UI and live WebSocket updates across multiple concurrent users.

Portfolio Website — *React, CSS3, Framer Motion*

- Fully responsive personal portfolio showcasing projects and skills with smooth animations and a modern design aesthetic.

CERTIFICATIONS
